

Pre-symposium Programme

Wednesday 24 June

Maersk Tower, Jerne Auditorium

Theme: Novel understanding of skin allergies

10.00 - 10.15 Welcome – Charlotte Menné Bonefeld

Session 1: Chair Veronika Mraz

10.15 - 10.45 Philipp Esser: Activation of the immune system by contact allergens

10.45 - 11.15 Marc Vocanson: T cell responses to contact allergens

11.15 - 11.30 Short talk by Maria Gluud: Staphylococcus aureus augments epithelial skin barrier damage through T cell activation in Cutaneous T cell lymphoma

11.30 - 11.45 Short talk by Line B Nørreslet: Treatment with delgocitinib cream is associated with reductions in Staphylococcus aureus density and pain, and increased microbial diversity in patients with mild to severe Chronic Hand Eczema

11.45 - 12.30 Lunch

Session 2: Chair Niels Ødum

12.30 - 13.00 Rachael Clark: How to target local versus systemic memory responses

13.00 - 13.30 Kenji Kabashima: New therapeutic targets for pruritus

13.30 - 13.45 Short talk by Kilian Maire: Germline-Encoded TCR Segments Shape CD4⁺ T Cell Responses to House Dust Mite Allergens

13.45 - 14.00 Short talk by Peters Onyilo: Building equitable eczema diagnosis support: evidence from an open Sub-Saharan African pediatric dermatology image dataset

14.00 - 14.30 Coffee break

Session 3: Chair Jonathan Coquet

14.30 - 15.00 Marie-Charlotte Brügger: The role of adipose tissue in skin inflammation

15.00 - 15.30 Luca Stingeni: Novel therapeutic approaches of allergic contact dermatitis

15.30 - 15.45 Short talk by Nelson Mosha: Sensitizations to pollen differ between Central European and Sub-Saharan African atopic dermatitis patients

15.45 - 16.00 Short talk by David Pesqué: Transcriptomic Analysis of Allergic Patch Test Reactions in Non-Atopic Patients: A Comparative Study Across Multiple Allergens

The Pre-symposium

is sponsored by LEO Foundation
